

Lakkobia Environmental Compliance Act – Section 42

This document outlines the updated regulatory guidelines as per the 2025 amendment to the Environmental Compliance Act of Lakkobia.

Effective Date: April 15, 2025

Reference Code: LECA-2025-S42

Document Type: Regulation Update

Key Points:

- All AI systems operating in sensitive sectors (e.g., energy, defense, healthcare) must be registered with the National Compliance Registry.
- Regular audit logs must be retained for a minimum of 18 months.
- Use of unverified LLMs in decision-making processes must be flagged and reviewed quarterly.
- Developers must implement safeguards against hallucinations and unauthorized data access.

Failure to comply will result in fines ranging from 50,000 to 200,000 LKR and possible suspension of system operations.
